

# BE A CITIZEN SCIENTIST

STUDY HUMPBACK WHALES

SOCORRO ISLANDS

MARCH 15-24, 2017

## DIVE WITH A PURPOSE

Join the amazing crew of the Quino El Guardian and Dr. Jorge Urban on one of the most inspiring dive adventures of your lifetime!

Dive twice a day enjoying all that Socorro has to offer - giant Mantas, 7 species of sharks, Jacks and more. Then spend the afternoon in inflatables following humpback whales.

Participate in photo identification, collection of skin samples and whale song recording.

Enjoy daily presentations on whale diversity and evolution, reproductive strategy, conservation and more.

Take part in as much or as little as you like!

## ABOUT DR. JORGE URBAN

Dr. Urban is a Professor of the Department of the Coastal and Marine Sciences of the University of Baja California Sur at La Paz, where he has worked for 30 years. He began his research on whales in '82 when he started the first long term study on humpbacks in Mexico.

Jorge has presented papers on humpbacks at 70+ international meetings and has written more than 100 scientific publications about the great whales and dolphins of the Gulf of California.
