

BE A CITIZEN SCIENTIST

AQUARIUM OF THE WORLD: MARINE REEF BIODIVERSITY

SOUTHERN SAFARI OCTOBER 22-29, 2017

DIVE WITH A PURPOSE

Join the amazing crew of the Quino El Guardian and Dr. Carlos Armando Sanchez-Ortiz on one of the most inspiring dive adventures of your lifetime!

Dr. Sanchez has extensive knowledge in most all animal species found in the Sea of Cortez and specializes in corals, invertebrates, sea fans, and gorgonians. It is amazing how little is known about these animals. We need to learn more so that we can better care for and conserve them.

Daily Presentations & Activities Include:

- Why did Jacques Cousteau once call the Sea of Cortez the Aquarium of the World?
- Why is the Gulf of California so productive?
- How many and what species are in the Gulf of California?
- How healthy is Cabo Pulmo Reef?
- Climate change & human impact on the reef
- Invertebrate and zooplankton identification workshop

Participate as much or as little as you like!

ABOUT DR. CARLOS ARMANDO SANCHEZ-ORTIZ

Dr. Sanchez is Professor-Researcher at the Autonomous University of Baja California Sur (UABCS), La Paz, BCS. Mexico.

As a professor at the UABCS he has taught courses in Invertebrate Zoology, Benthos Ecology, Genetics and Molecular Systematics. For 25 years he has been doing research in the Gulf of California, Mexican Pacific and Oceanic Island.

He is currently director of the UABCS Research Program for the Conservation of Reef Fauna, developing studies on: a) biodiversity in reef ecosystems and description of new species; B) ecology of communities in reef ecosystems; C) evaluation of the health status of reef ecosystems and their environmental services; and d) scientific underwater photography.
