## DIVING

The crew of Quino El Guardian is here to help you in any way possible to make your visit to the Socorro Islands an unforgettable experience.

Diving at the Socorro Islands is amazing and it provides the chance for large animal encounters. The main attractions in the Socorro Islands are the large pelagic, mantas rays, dolphins, humpback whales and seven different types of sharks including hammer head sharks. Due to the Revillagigedo biosphere regulations, divers are prohibited from carrying lights, knives or gloves when diving anywhere in the Socorro Islands. Only camera lights are permitted. All diving is during the day; there are no night dives. The first day divers enjoy 2 – 3 dives. All other days' divers enjoy 4 dives per day, conditions permitting. Divers can expect 3 dives a day at Roca Partida.

Our trips have dive masters on board to lead dives and assist divers. We also have two zodiac drivers vigilantly watching for bubbles and retrieving divers upon surfacing. We provide 80 cubic ft. aluminum tanks that are both DIN & yoke compatible.

## ABOUT THE BOAT

Quino el Guardian is of the utmost sea worthiness and is approved by both the U.S. Coast Guard and the Mexican Coast Guard. It is equipped with state of the art electronics and all safety equipment required.

Quino el Guardian is 90' long with a 23' beam.

The number of guests Quino el Guardian accommodates is 16.

There are four air-conditioned cabins that sleep four guests each. There are two bunks on each side. Each bunk has a privacy curtain. Each cabin is outfitted with four large drawers, one for each guest. There is also storage space under the bottom bunks and clothing/towel hooks in the main cabin area. Cabins are typically assigned by gender.

There is one cabin with 2 bunks that sleeps 2. This cabin is generally reserved for a couple.

Our guests enjoy Tempur-Pedic® mattresses and quality bed linens. Our steward cleans all rooms, bunks, and bathrooms during the first dives of the day. We provide bath towels and dive deck towels and these are changed mid-trip.

Quino has four, air-conditioned bathrooms with a full-size shower in each bathroom on the dive deck. Each cabin is assigned to a bathroom so guests can leave their personal items and towels in the bathroom. Shampoo and soap dispensers are in each shower. There are two lavatories on the dive deck that are shared by all passengers.

The galley comfortably accommodates all 16 passengers. The galley also has a projector and a large drop-down screen should your group want to do presentations.

The comfortable salon has sofas, a TV, and computer table.

The dive deck is large and well organized with a spacious camera table. There is a dive platform for ease of boarding the inflatables. Quino has two 18' Achilles inflatables for the safety and ease of our divers with very sturdy ladders.

On the second deck there is a large shaded sundeck with lawn chairs for relaxing between dives.

All voltage aboard Quino el Guardian is 110 just like the USA.

## GETTING TO THE BOAT

Quino el Guardian is located at Marina Puerto Los Cabos in La Playita, [San Jose del Cabo](#).

All guests must travel to San Jose del Cabo (SJD).

Guests are responsible for their own transportation to and from the boat. The marina is about 25 minutes from the airport and 15 minutes from downtown San Jose del Cabo.

### DIRECTIONS TO QUINO EL GUARDIAN FROM THE AIRPORT AND DOWNTOWN SAN JOSE DEL CABO

Marina Puerto Los Cabos is about a 25-minute taxi ride from the airport and 15 minutes from downtown San Jose del Cabo. Please drive toward the small fishing town of "La Playita" and El Ganzo Hotel. Once you are in the marina area you will be driving on a long, winding road with roundabouts. To your right you will see a tall, beige building called MARINE GROUP and on the other corner an OXXO store. Turn right at the Marine Group building and OXXO store. Keep driving toward El Ganzo Hotel. Quino el Guardian is docked about 100 yards before El Ganzo hotel. There is a small, adobe colored building with several parking spaces. This is the entrance to the dock.

The most economical way from the airport to the marina is to take a Colectivo (shuttle) and a taxi. The Colectivo (shuttle) charges \$15.00 USD per person. Once you collect your bags and leave Customs you will enter a lobby. You will find a stand that says taxi. A taxi ride from the airport to the marina is about \$60 USD. You can ask for a Colectivo at this same stand. A Colectivo is a very nice shuttle that takes about 9 passengers and does a hotel drop. Since you are going to San Jose you will be dropped off first. You can have the Colectivo drop you off at the Hotel Tropicana. At the hotel, you can then request a taxi to the Marina Puerto Los Cabos. You should not pay more than \$10 USD. It's about a 15-minute ride from the hotel to the marina. By choosing these two methods of transportation it should cost you about \$25 USD. If you choose just to get a taxi from the airport to the marina it should cost about \$60 USD. If you have more than one person, it is often easiest to use a taxi directly to the marina.

## RETURN

The boat will return to the marina during the night and passengers need to be ready to depart by 8:30am on the last day of your trip. A continental breakfast will be served. Our crew will call taxis to get everyone to the airport or their hotel.
