## DIVING

The crew of Quino el Guardian is here to help you in any way possible to make your visit to the Sea of Cortez/Midriff Islands an unforgettable experience.

The Sea of Cortez is also called "The World's Aquarium" by Jacques Cousteau. Our Sea of Cortez season runs from July through September. Each trip runs from Sunday to Sunday. The boat departs from Puerto Peñasco, Mexico, at 7 pm. We travel for 12 hours and arrive by 7 am the next morning, ready for our first dive.

The Sea of Cortez is very diverse and has a vast array of nudibranchs, blennies, jawfish, rays and guitarfish, schools of fish, eels, octopus, sea horses, frogfish, Mexican horn sharks, and the list goes on and on. We also have a lot of whale activity on this trip. We consistently see pilot, fin, and sperm whales. On the last day of diving, we dive in the morning then snorkel with whale sharks at Bahía de Los Angeles. By 3 pm, we start motoring back to Puerto Peñasco. Divers enjoy 3 - 4 dives per day and 2-night dives.

Our trips have three dive masters on board to lead dives and assist divers. We also have two zodiac drivers vigilantly watching for bubbles and retrieving divers upon surfacing. We provide 80 cubic ft. aluminum tanks that are both DIN & yoke compatible.

## ABOUT THE BOAT

Quino el Guardian is of the utmost seaworthiness and is approved by both the U.S. Coast Guard and the Mexican Coast Guard. It is equipped with state of the art electronics and all safety equipment required.

Quino el Guardian is 90' long with a 23' beam.

The number of guests Quino el Guardian accommodates is 16.

There are four air-conditioned cabins that sleep four guests each. There are two bunks on each side. Each bunk has a privacy curtain. Each cabin is outfitted with four large drawers, one for each guest. There is also storage space under the bottom bunks and clothing/towel hooks in the main cabin area. Cabins are typically assigned by gender.

There is one cabin with 2 bunks that sleeps 2. This cabin is generally reserved for a couple.

Our guests enjoy Tempur-Pedic® mattresses and quality bed linens. Our steward cleans all rooms, bunks, and bathrooms during the first dives of the day. We provide bath towels and dive deck towels, and these are changed mid-trip.

Quino has four air-conditioned bathrooms with a full-size shower in each bathroom on the dive deck. Each cabin is assigned to a bathroom so that guests can leave their personal items and towels in the bathroom. Shampoo and soap dispensers are in each shower. All passengers share two lavatories on the dive deck.

The galley comfortably accommodates all 16 passengers. The galley also has a projector and a large drop-down screen should your group want to do presentations.

The comfortable salon has sofas, a TV, and a computer table.

The dive deck is large and well organized with a spacious camera table. There is a dive platform for ease of boarding the inflatables. Quino has two 18' Achilles inflatables for our divers' safety and ease with very sturdy ladders.

On the second deck, there is a large shaded sundeck with lawn chairs for relaxing between dives.

All voltage aboard Quino el Guardian is 110 just like the USA.

## SUGGESTED GEAR & CLOTHING

Besides your standard dive gear, every diver is required to have the following: dive computer, safety sausage (SMB), and a whistle.

Every diver is required to have a dive computer, safety sausage (SMB) and a whistle.

One of the most popular questions we receive is about water temperature!

The Sea of Cortez is a very seasonal sea, which means it changes rapidly based on the seasons. Our trips begin in early July where the temperatures are approximately 75-78 degrees Fahrenheit. It increases by about 2 degrees Fahrenheit every week and tops off at about 85 degrees mid-August, and remains there until about mid-September.

After mid-September, the temperatures drop an average of 2 degrees Fahrenheit every week.

We absolutely recommend exposure protection (wetsuits/light drysuits) on our trips. Many guests have found that a 3mm wetsuit along with a hooded vest works best. Gloves and dive lights are permitted and suggested, especially for night diving.

Surface water temperature averages: June & July 75°, August 80°, and September & October 87°.

The dress is casual. Do not forget your hat, sunglasses, and sunscreen.

## RENTAL DIVE EQUIPMENT

We have a limited number of regulators, BCD's, dive computers, and HP steel 100cft/12L steel tanks available for rental at \$50 each per trip. Please let us know at least three weeks before your arrival if you want to rent equipment, so we have it onboard for you. We do not rent exposure suits, hoods, fins, masks, safety sausages (SMB's), whistles, or lights. As we have a limited number of these items available to rent, they are available on a first-come, first-served basis. Please contact Janet in Guest Services to reserve your equipment at [JMariscal@RocioDelMarLiveaboard.com](mailto:JMariscal@RocioDelMarLiveaboard.com).
